

Warrior-Centric Healthcare Training (WCHT)[®]

Web-based CME/CE with up to 5 credits—Available 24/7

What is Warrior-Centric Healthcare Training (WCHT)[®]?

Warrior-Centric Healthcare Training (WCHT)[®] is designed to equip **Allied Health Team** members with the skills necessary for the standard and consistent application of culturally competent methodologies when treating military service members, veterans and their families.

Post Traumatic Stress Disorder (PTSD), **depression**, and **Traumatic Brain Injury (TBI)**, and other mental and behavioral conditions are being treated in various ways throughout the U.S. Department of Defense (DoD), Veterans Administration (VA), and civilian healthcare systems. This program teaches healthcare professionals how to master these unique clinical situations by exploring the differences in military service, military culture, rank, veterans, gender issues, age, values and beliefs, socioeconomics, race, ethnicity and religion.

This program was developed to help physicians, physician assistants, nurse practitioners, pharmacists, and nurses. However, other healthcare professionals such as social workers, psychologists, chaplains, behavioral health professionals, and executive healthcare leaders may benefit from the content of this program and will be provided with a certificate of participation.

MedConcert[®] Portal & Warrior-Centric Healthcare Training (WCHT)[®]

The **Warrior-Centric Healthcare Training (WCHT)[®]** activities are available within the Military and Veteran Learning Community within **MedConcert[®]**. This activity is eligible for *AMA PRA Category 1 Credit[™]*, AAPA, ACPE, ANCC and AANP Credit; see activity front matter for specific details.

How to participate in Warrior-Centric Healthcare Training (WCHT)[®]

1. Go to www.medconcert.com/wcht
2. Register
3. Click on *Warrior-Centric Healthcare Training (WCHT) – You Must Know Me to Treat Me[®]*
4. Click to register for activity and online payment
5. Begin Activity
6. **Pre-assessment**
Take the pre-assessment to log your current understanding of the training material. You will not be graded or evaluated on your responses.

Activity Material

Watch and review the four Learning Modules, which focus on different aspects of the **Warrior-Centric Healthcare Training (WCHT)[®]**. Each module contains an introduction and conclusion video, lecture videos, and supplemental videos on the specific module topic. You need to complete all four modules in order to take and pass the post-assessment.

7. **Post-assessment**
You must take and pass the post-assessment with a 70% or higher within three attempts to receive four (4) credits for this training.
8. **Evaluation**
Take the short, anonymous, and voluntary training evaluation to provide us with the feedback needed to make this training better in the future.
9. **Certificate**
Once you've completed the post-assessment, you will be awarded four (4) credits and can print the certificate for your own records.
10. **Case Studies**
You will have the opportunity to receive one (1) additional CME credit by participating in two case study activities 3 months after passing this assessment. You will receive a follow-up email in 3 months with the link to the case studies.

The Steptoe Group

The **Steptoe Group, LLC** is committed to working in partnership with government agencies and private organizations to ensure access by all citizens to quality health, science, and education services. **Steptoe Group** accomplishes this goal externally by working as an extension of the client, providing quality services to support them in their mission. Internally, **Steptoe Group** fosters an environment of autonomy, professionalism, and pride. The result is empowered employees and consultants that share the firm's philosophy and who are committed to the client and to meeting all of their needs. The firm accomplishes this mission by utilizing a proprietary business platform that effectively and efficiently integrates training, information management, research, and communications in order to improve long-term health outcomes.

The **Steptoe Group's** innovative and proprietary training and consultative solutions have been deployed in a variety of organizations to include:

- Walter Reed Army Medical Center, Washington, DC – contract award

- Univ. of California-San Francisco (UCSF) – School of Nursing, San Francisco, CA
- American Medical Association (AMA) – Commission to End Healthcare Disparities, Nashville, TN
- Robert Wood Johnson Medical School, Rutgers, Piscataway, NJ
- American Academy of Physician Assistants (AAPA) – National Conference, Washington, DC
